

**Agreement**  
(hereinafter called the “Agreement”)

For publishing the  
The 7th National Scientific Conference on Mechanical Engineering 2023  
(hereinafter called the “Publication”)

between

Editor(s)/Author(s)

Represented by Dr. Thuc Kieu  
Hanoi University of Industry, Hanoi, VietNam  
No 298 Cau Dien Street, Bac Tu Liem Distric, Hanoi, Vietnam  
100000  
(hereinafter called the “Partner”)

on the one part

and

Trans Tech Publications Ltd  
Seestrasse 24c  
CH-8806 Baech  
Switzerland  
Represented by Anne-Kristin Wohlbier  
(hereinafter called the “Publisher”)

on the other part

**1. Purpose of the Agreement**

The Partner plans to publish with the Publisher the Publication. This Agreement defines the scope of the project, cooperation and all requirements, obligations, and rights of the parties.

**2. Providing data from the Partner to the Publisher**

To start the project, the Publisher needs to setup its systems, reserve human and machine resources.

Where needed, the Publisher opens for the Partner its Web Application (called “Editor Tool”) and provides an admin account for the Partner. The Publisher supports the users of the Partner in their work with the “Editor Tool”.

The Partner has to complete work on the Publication according to the definition, templates and other requirements listed in the Appendix A hereto.

**3. Quality of Work**

The Partner should comply with all international requirements, requirements of main abstracting and indexing databases, Publisher’s internal rules and regulations valid on the time of providing data from the Partner to the Publisher.

The Partner ensures that the papers are conform to the aim and scope of the periodical.

The Partner ensures the Publication’s quality by completing a single-blind peer-review. If the author and editor are the same person, an external independent peer-review is required.

The peer-review report should contain both the checklist and the descriptive reflection of the peer-review as well according to the international standards of high-quality content. As a result, the Partner guarantees to follow the Guidelines, Publication Policy and Ethics provided on the Publisher's website download area.

The Publisher is obliged to verify quality of the Publication before publishing it online.

The Publisher has the following rights, but not limited to:

- Initiate additional peer-review of the whole Publication or its part
- Refuse part or the whole Publication to be published on the Publisher's website
- Return the Publication for re-working
- Suggest changes to the Publication
- Request the Partner for additional information

The Publisher has a right of final decision as to acceptance of the Publication.

#### **4. Copyright and Publishing Model**

The Publication can be in whole or part in the Traditional Subscription or Open Access Model:

4.1. The part of the Publication published in the "Traditional Subscription Model":

4.1.1. By submitting the Publication, the Partner and the authors transfer the exclusive copyright to the Publisher. The transfer of copyright includes distribution in all formats.

4.1.2. The Publisher has the right to work with the Publication, as submitted by the authors and reuse it in its presented form at the Publisher's discretion (e.g., Aggregated Books, Translations, etc.).

4.2. The part of the Publication published in the "Open Access Model":

4.2.1. Publication is published under the terms of the Attribution 4.0 Creative Commons License "CC-BY" (<http://creativecommons.org/licenses/by/4.0/legalcode>).

4.2.2. The Publisher will clearly mark the Article being published under the CC-BY License. The Publisher will include the copyright notice of the copyright holder in the Article.

Should the Publication contain items (e.g., figures or tables) taken from other sources, the author has the obligation to obtain the respective permissions for reproduction from the corresponding publishers and/or copyright holders. The Partner is expected to verify this process.

#### **5. Publisher's Internal Review Process**

After the Partner has delivered the required material, the Publisher's review process shall start. The Publisher shall verify if all the before mentioned requirements are fulfilled.

#### **6. Final Acceptance of the Publication**

After the Publisher finishes the internal review process, the Publisher shall inform the Partner of the results. As soon as the Partner accepts the Publisher review results, the Publication is considered accepted.

#### **7. Technical Check**

After the final acceptance from the Partner, the technical check shall start. In cooperation with the authors of the Partner, the Publisher support team corrects the Publication within the technical check (format, layout, graphics, etc).

#### **8. Publisher Services**

After finishing the technical check, the Publisher will deliver the products as ordered in the Appendix B hereto according to the schedule in the Appendix C. The Publisher will also do the following steps according to the schedule in the Appendix C:

- Publish the Publication online
- Publish the Publication as eBook
- Publish the Publication as print Book for worldwide distribution

- Make the Publication available for individual order on the Publisher website
- Make the Publication available for worldwide distribution
- Supply Third-Party Organization with the Publication for further distribution
- Promote the Publication and meta data in a wide area of databases (Appendix A).
- Optimize the Publication for indexing on search engines (SEO)
- Maintain link resolvers

## 9. Promotion

Additionally, the Publisher and the Partner agree to promotional support in both directions. The details are listed in the Appendix D.

## 10. Termination and Effect of Termination

If one of the parties hereto does not fulfill the Agreement in whole or in part, the Agreement can be terminated in whole or in part. In this case, the following variants can come into force.

- the Publication shall be partly accepted;
- the Agreement shall be split into several other contracts;
- the current project shall be merged with another project(s).

If none of these variants lead to an amicable solution, the Agreement will be canceled in whole. Payments already made shall be refunded and copyrights shall be transferred back.

The Partner informs its authors about every action that affects them within 10 working days.

## 11. Jurisdiction

The parties agree to submit their disputes arising out of or related to this Agreement to the exclusive jurisdiction of the Commercial Court in Zurich, Switzerland.

## 12. Force Majeure

A party shall not be liable for any failure of or delay in the performance of this Agreement if such failure or delay happens due to causes beyond the party's reasonable control, including but not limited to acts of God, war, strikes or labor disputes, embargoes, government orders or any other force majeure event, during the whole period of such event.

Topics according "Thema"

Notation	Category heading
PHD	Classical mechanics
PHDB	Elementary mechanics
PHDD	Analytical mechanics
PHDF	Physics: Fluid mechanics
PHDS	Wave mechanics (vibration and acoustics)
PHDT	Dynamics and statics
PHFG	Physics of gases
TB	Technology: general issues
TBC	Engineering: general
TDPM	Metals technology / metallurgy
TG	Mechanical engineering and materials
TGB	Mechanical engineering
TGBF	Tribology (friction and lubrication)
TGH	Precision engineering and manufacturing
TGM	Materials science
TGMB	Engineering thermodynamics
TGMD	Mechanics of solids

TGMF	Mechanics of fluids
TGMF1	Aerodynamics
TGMF2	Hydraulics and pneumatics
TGMT	Testing of materials
TGPC	Computer aided manufacture (CAM)
TH	Energy technology and engineering
TNC	Structural engineering
TNF	Hydraulic engineering
TTS	Marine engineering
UB	Information technology: general issues

Each Author will get access to his/her own paper with his/her login credentials from “Editing Tool” for personal use.

Each Reviewer, Editor, Author and Participant will receive a personal account to get access to the Publication for personal use.

Open Access Option for Author(s):

The Publisher offers the Author(s) an option for Open Access to comply with funder requirements. This option allows the Author to pay for Open Access in the respective Creative Commons license (CC-BY 4.0).

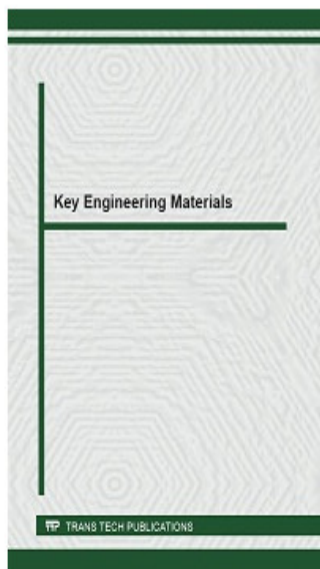

For ordering an Open Access, the Author needs to fill in a form, which can be downloaded from the Publisher website download area and send it to the Publisher.

In case there are more papers/pages than estimated above, the price will be adjusted according to the new numbers.

### About:

Key Engineering Materials is a peer-reviewed periodical which covers entire range of basic and applied aspects of the synthesis and research, modelling, processing and application of advanced engineering materials. "Key Engineering Materials" is one of the largest periodicals in its field.

"Key Engineering Materials" specializes in the publication of thematically complete volumes and complete special topic volumes. Periodical considers stand-alone papers by individual authors.

Authors retain the right to publish an extended and significantly updated version in another periodical.

### About:

"Applied Mechanics and Materials" is a peer-reviewed journal which specializes in the publication of proceedings of international scientific conferences, workshops and symposia as well as special volumes on topics of contemporary interest in all areas which are related to:

- 1) Research and design of mechanical systems, machines and mechanisms;
- 2) Materials engineering and technologies for manufacturing and processing;
- 3) Systems of automation and control in the areas of industrial production;
- 4) Advanced branches of mechanical engineering such as mechatronics, computer engineering and robotics.

"Applied Mechanics and Materials" publishes only complete volumes on given topics, proceedings and complete special topic volumes.

Authors retain the right to publish an extended, significantly updated version in another periodical.

All published materials are archived with [PORTICO](#) and [CLOCKSS](#).
